Profile Summary

Front-end Web Developer with a 3-year Higher Diploma in Software Engineering (HDSE) and hands-on experience building responsive, interactive web applications using HTML, CSS, JavaScript, and modern frameworks. Passionate about creating intuitive user interfaces and delivering clean, efficient code. Seeking a Junior Web Developer role to contribute to real-world projects and grow as a full-stack developer.

Technical Competencies

- Web Technologies (HTML, CSS, JavaScript)
- Programming Fundamentals & Logic Building
- Front-end Development & UI Design
- Database Basics (SQL)
- Software Engineering Principles
- Project-based Learning with real-world applications

Projects

HTML, CSS, and JavaScript

Analog Clock

A real-time analog clock that displays current time with moving hour, minute, and second hands. Demonstrates DOM manipulation and JavaScript Date object.

Secure Password Generator

Generates strong, random passwords with customizable length and character options (uppercase, lowercase, numbers, symbols). Helps users create secure passwords for online accounts.

QR Code Generator

Converts any text or URL into a scannable QR code instantly. Useful for sharing links, contact info, or WiFi credentials without typing.

Food Recipe App

Allows users to search for dishes, view ingredients, and follow cooking instructions. Includes save/favorite feature for quick access to preferred recipes.

Digital Clock

A sleek digital clock displaying current time in HH:MM:SS format with AM/PM indicator. Updates every second and features a clean, modern UI.
